Other Information

Thank you for your consideration of The Indiana Painting Co., Inc. for this project. Our company is confident that we can complete your project even though the size is slightly larger than our largest job completed to date. During the last few years, our company was growing quickly and taking on larger projects. Since then, we have decided to take small to mid-size jobs and build a core competency in doing work on schedule, on budget, and with a quality not usually offered in the commercial painting industry. We are confident that we will be able to scale our crew to match the staffing requirements of this project while maintaining the desired quality and speed that will be needed to bring this job to a successful close.
